- Licensed Home Improvement Contractor in TN.
- Developed and delivered training for sales and quality control teams.
- Utilized Eagle View and Xactimate for precise estimations.
- Established a strong local network with contractors and businesses.

PROJECTS

All projects use Git and GitHub for version control.

Whatever the Weather, Personal Project [Git Hub](#) | [Website](#)

Developed a React.js weather app with vanilla CSS, featuring current temperatures and a 5-day forecast via Open Weather API. Deployed on Heroku.

Unpopular Opinions, General Assembly [Git Hub](#) | [Website](#)

In a team, I built a platform with Python, Django, HTML, CSS, and MaterialUI for sharing and discussing sci-fi movie opinions. Deployed on Fly.IO.

Let's talk, Personal Project [Git Hub](#) | [Website](#)

Built a MERN stack application to promote journaling and freewriting, deployed as a mono-repo on Heroku.

EDUCATION

General Assembly, Software Engineer Fellow

04/24/2023-07/19/2023

I completed 500+ hours of expert-led instruction in frontend, backend, full stack development—and hands-on learning of database fundamentals. I used the industry's most in-demand technologies to create and deploy comprehensive web applications.

Cordova High School: Diploma

Aug 2002-May 2006
